DESERT INDUSTRIES EXPANDS SERVICE OFFERINGS WITH NEW STATE LICENSURE

LAS VEGAS, NV - June 4, 2009 - DESERT INDUSTRIES LLC, a national property maintenance company specializing in commercial/retail shopping centers, class "A" office buildings and municipal facilities, today announced it has been awarded Nevada State Licensure as General Contractors with a C-3 Carpentry License. Desert Industries can now directly perform various construction/tenant improvement projects in addition to their already comprehensive list of service offerings.

We are pleased to be offering these services directly to our customers here in the state of Nevada with our own construction staff instead of using various sub-contractors. This gives us a better pricing structure with more control of these projects said Susan Johnson, Managing Director of Desert Industries LLC.

A before and after photo gallery and a partial list of Desert Industries' satisfied clients can be found at www.desertindustriesllc.com.

About Desert Industries LLC Desert Industries (www.desertindustriesllc.com) is a national full service 24/7 property maintenance woman-owned company dedicated to assisting property owners, facilities maintenance companies, and HOAs.
